Expressed His Surprise.

Last night at one of the leading hotels in the city, a visitor in speaking with Daily News representative, expressed his surprise on the failure of the people of this city to supply an electric road to the beach. He said that he thought it would be a paying investment, particularly in the winter season. He concluded his conversation by saying that the people in the city would go more frequently to the ocean front, and that it would be a good thing for Seabreeze and Daytona Beach.

TURN, FORTUNE, TURN THY WHEEL

(From "The Marriage of Geraint")

By Alfred Tennyson

Turn, Fortune; turn thy wheel with smile or frown;

RN, Fortune; turn thy wheel and lower the proud; Furn thy wild wheel through sunshine, storm and cloud Thy wheel and thee we neither love nor hate.

With that wild wheel we go not up or down;

Smile and we smile, the lords of many lands; Frown and we smile, the lords of our own hands; For man is man and master of his fate.

Turn, turn thy wheel above the staring crowd; Thy wheel and thou are shadows in the cloud;

Florida Oranges in New York.

The Florida orange market was completely demoralized last week says the New York Fruit Trade Journal. Re ceipts were heavy and a large portion of them were very wasty, and much of the remaining fruit was unattractive. Large quantities were offered through the auction, and these sold at a wide range of prices.

Brown and Seccomb sold 10,500 boxes cluding a few boxes of grapefruit as the Fruit Auction Co., had three or four carloads of oranges and grapefruit. The range of prices was 75 cents to \$3.30 per box; the lowest and highest prices, of course, being extreme; but most of the fruit was sacrificed and did not pay for shipment.

The condition of the oranges was so bad that a couple of carloads were disposed of at 30 to 40 cents, respectively, per box, private sale. This fruit, of course, had an abnormal amount of rot. The condition of the Florida oranges

was never worse than this week. A fairly good demand for fine fruit of desirable size sprang up towards the close of the week, which gave some encouragement to receivers. The market is glutted with large sizes; small fruit is in limited supply and wanted, that is, sound stock.

ATTRACTIONS.

DAYTONA is situated upon the fairest expanse and masway between Mosquito Inlet. It is in latitude 19. seventy-four miles from St. Augustine and one mile from the At hattle Ocean, and is acknowledged to the villages of the South. Its site is upon what is known as high bam-mock land that works mock land that was crowned by nature with a most royal growth of najestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-herried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampelopsis climb and cling among the branches forming shady howers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly wo miles along the shore. This iver is the delight of the angler and he yachtsman and forms one of the own's greatest attractions.

The main avenue that run par del with or intersect the river are ill 100 feet wide, except Beach street. vhich is about sixty five feet, but has half mile of open, beautiful water butting upon its eastern side, where the salt waves ebb and flow and alone and across which comes the cooling uvigorating and health-giving breeze. from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world Daytona has many miles of well grad ed, marled and shelled roads and treets, rendering it the

Wheelman's Paradise

and added to these, but a mile away are thirty miles of smooth, hard beach that affords an unrivalled course for iong distance cycling and driving or automobile racing. No town of equadze, North or South, numbers s many wheelmen, and cycling is a fav orite pastime with the tourists sunmer and winter.

The Beautiful Cottages

that have been erected during the payears and are being built are render ing Daytona as famous for its tin homes as for its beautiful river, tree and avenues, and they are adding early to its attractions.

Not the least of these attractions t those securing homes in the South and ranking second only to health fulness and perfection of climate, is the fact that its population is chiefly of home and social life. Added to hese features are good churches, good public and private schools, stores, otels, laundry, ment markets, novelty vorks, an opera house, electric lights or street and house illumination, a ood telephone system, ice factory. dy Water Works, and hot and colo aths, etc., and everything else can be rocured that is necessary to make fe comfortable. An important feat re in the healthfulness of this town

Water Supply

which is derived from numeron towing wells, of which there are prob ibly 300 in the corporate limits. The low is secured by boring wells to the epth of from 80 to 120 feet, passing brough several strata of rock, and his depth assures purity from alourface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona proper is about 1,800. Added this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze of Goodall, Scabreeze and Silver Beach, which are properly a part of the town and population.

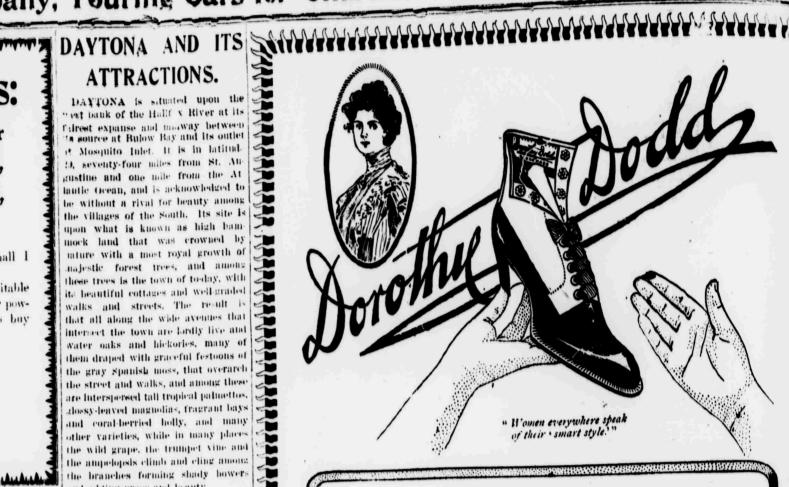

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded ave nues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city com bined, and is also becoming a favorite winter resort. The beach is wide, arm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard us macadam, and an ideal stretch break makes it the natural racing ground for America.

At low tide the beach is bared for 300 feet and neither carriage wheel, bicycle or pedestrian can make a bicycle or pedestrian can make a bardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palmfringed boulevards bring the lovers of

Smart Boots

TYLE is one of the most indefinable yet important of feminine attributes. Give a woman perfect beauty and that beauty can yet be exalted by the title of "stylish." When in addition to other virtues of "Dorothy Dodd" Shoes women everywhere speak of their "smart style," we feel it expresses the utmost praise. But other features also have contributed to the truly wonderful success of "Dorothy Dodd" Shoes.

Their Lightness. They are lighter than any other shoe of equal stability. Their Arch-Supporting Feature. This gives an easy poise and carriage and ac-centuates the graceful lines of the instep. Their Flexibility. They follow every motion of the foot, thus saving fatigue. Their Moderate Price. Three fifty and three dollars per pair for really beauti-ful high grade footwear.

Why not include in your gifts a Christmas box of "Dorothy Dodd" boots for some special service? You may buy special styles for dress, street, school, business, outing and other services. These are the faultless fitting shoes now being so extensively advertised in the magazines. We have the exclusive sale. It will afford us pleasure to show them and to demonstrate these claims.

it Daytona has been the yearly im provement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awaken ed to its advantages for winter rest ances, and valuable lots are being surchased and costly houses, beautiful in design and finish, are being erect ed, and beautiful homes, the abodeof wealth and culture are multiplying. Scabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Hall-

fax River from Daytona, At the foot of Ocean Boulevard. Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who deligh. it the sport of fishing. The surr here abounds in trout, pompano, yel lowfail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords roya-sport, and it has been no uncommon ecurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing. and the varieties that abound in the ocean are present in the river.
